Product description

Porsche at Le Mans 100Y deutsch.
The class win of the 356 SL Aluminium Coupé right at the first start in 1951 marked the beginning of one of the greatest legends in motorsport: Porsche and Le Mans. Ever since, Porsche racing cars have competed every year – only Porsche has been taking part for 73 years. The reward for this unique show of endurance is a series of records, including 19 triumphant overall wins. Porsche wants to maximise its chances of a 20th overall win at the 24 Hours of Le Mans. For this reason, the Porsche Penske Motorsport works team is entering three Porsche 963 in the 24 Hours of Le Mans, 2023. This book covers the first 72 years of the Porsche and Le Mans story. There’s a tale behind every race. What happened? What were the reasons behind what happened? Each year’s report is rounded off by the results and illustrations that offer all kinds of new and fascinating views. Never before have original documents from the company archives been published on this scale – a real treasure trove for anyone who wishes to really get into the details.
704 pages
Approx. 1,000 pictures and illustrations
