Available:	availability on request
Price:	4.126,91 € (nett:3.467,99 €)

Product description

This winter wheel set for the Porsche 911 model 992.2 (facelift from 2024 onwards) combines aesthetics with functionality and offers optimum performance in the cold season. The set consists of two 19-inch rims with dimensions 8.5J x 19 ET52 for the front axle and two 20-inch rims with dimensions 11J x 20 ET80 for the rear axle, all in an elegant brilliant silver finish.

The rims are fitted with high-quality Pirelli P Zero Winter 2 winter tyres, which ensure excellent traction and safety in winter conditions. The tyre sizes are 235/40 R19 at the front and 295/35 R20 at the rear, ensuring balanced driving dynamics and stability.

In addition, the wheels are equipped with TPMS (tyre pressure monitoring system) sensors, which constantly monitor the air pressure and thus ensure increased driving safety. This set of wheels is an original Porsche part with the OEM number 992044630A and stands for the highest quality and accuracy of fit.

This set, which is as good as new, is not only functional but also visually appealing, maintaining the sporty appearance of your Porsche 911 even in winter. Ideal for drivers who do not want to compromise on performance and safety, even in snow and ice.

Technical specifications

Front rims:	Article number: 992601025FR8Z8 Quantity: 2 Rim width: 8,5J Rim diameter (inch): Offset (ET):
