Product description

This set of Turbo V winter wheels is specially designed for the Porsche 911 model 992.1 Turbo and Turbo S built between 2020 and 2024, except for models with central locking. The set consists of high-quality rims and winter tyres that ensure optimum performance and safety in winter conditions.

The rims are sized 8.5J x 20 ET40 for the front axle and 11J x 21 ET66 for the rear axle, guaranteeing a perfect fit and excellent driving stability. The Goodyear winter tyres fitted on the rims, in sizes 245/35 R20 at the front and 305/30 R21 at the rear, offer excellent grip and traction on snow and ice. The combination of the specific dimensions of the rims and tyres ensures optimum balance and improved handling of the vehicle in winter conditions. This wheel set is an excellent choice for drivers who do not want to compromise on performance and safety in winter. The part number for this set is 992044603AA, and it meets Porsche's strict quality standards, making it a reliable and durable product. As a new, unused and undamaged item, this winter wheel set is an ideal addition to your Porsche 911 992.1 Turbo or Turbo S to get you through the cold season safely and in style.
