Available:	ready for shipping
Price:	3.197,23 € (nett:2.686,75 €)

Product description

This set of 20-inch Macan S winter wheels for the Porsche Macan, model 95B (built between 2014 and 2024), is an excellent choice for drivers who value safety and performance in the cold season. The wheels are fitted with high-quality Michelin winter tyres, measuring 265/45 R20 on the front axle and 295/40 R20 on the rear axle. This tyre combination ensures optimum traction and stability on winter roads.

The rims are 9J x 20 ET26 for the front axle and 10J x 20 ET19 for the rear axle, guaranteeing a perfect fit and excellent driving characteristics. The surface of the rims has an attractive black silk matt finish, which is not only aesthetically pleasing but also resistant to road dirt and salt.

In addition, the wheels are equipped with TPMS (tyre pressure monitoring system) sensors, which constantly monitor the air pressure and contribute to vehicle safety. The tyres, manufactured in 2023, have a tread depth of 6-7 mm, which promises excellent remaining service life.

The OEM number for this wheel set is 95B044650E 23 6-7, which confirms their authenticity as original Porsche parts. Despite their used condition, the wheels are very well preserved and undamaged, making them a valuable addition for any Porsche Macan owner who does not want to compromise on quality and performance.

Technical specifications

TPMS sensors:	Yes
