<b>Price:</b>	<b>5.901,82 €</b> <b>(nett:4.959,51 €)</b>

## Product description

This set of 21" Cross Turismo Design summer wheels for the Porsche Taycan offers an excellent combination of style and performance. The rims in sizes 9.5J x 21 ET60 and 11.5J x 21 ET66 are finished in an attractive titanium grey that is not only aesthetically pleasing but also enhances the overall appearance of your vehicle.

The wheels are fitted with high-quality Goodyear summer tyres in sizes 265/35 R21 for the front axle and 305/30 R21 for the rear axle. These tyres are brand new and offer excellent grip and performance on both dry and wet road conditions, making them ideal for the summer months.

In addition, the wheels are equipped with TPMS (tyre pressure monitoring system) sensors, which constantly monitor the pressure in the tyres, ensuring increased safety and improved driving dynamics.

The rims and tyres are marked as used, but they are Porsche original parts that are new or as good as new. The rims have low mileage and may show minimal signs of use or storage, while the tyres are factory new (0 km mileage).

The OEM number for this set is 9J1073660L, which confirms the authenticity and quality of these Porsche original parts. This wheel set is specially designed for the Porsche Taycan and supports the unique performance characteristics and aesthetics of this exceptional vehicle. Ideal for drivers who value both functionality and a visual upgrade for their vehicle.

## Technical specifications
