Product description

This set of 21-inch "Exclusive Design" summer wheels is specially designed for the Porsche Taycan J1 (built between 2019 and 2024) and offers an outstanding combination of style and performance. The high-gloss black rims measure 9.5J x 21 ET60 for the front axle and 11.5J x 21 ET66 for the rear axle, ensuring a perfect fit and excellent driving stability.

In addition, the wheels are fitted with brand new Goodyear summer tyres, which offer optimal grip and excellent handling characteristics in warm weather conditions with dimensions of 265/35 R21 at the front and 305/30 R21 at the rear. The tyres are brand new, which means they have no mileage and therefore guarantee maximum performance and safety.

The wheels are also equipped with TPMS sensors, which continuously monitor tyre pressure and thus contribute to driving safety. The rims themselves are considered to be in mint condition, with possibly minimal signs of use or storage, which underlines their quality and durability.

The OEM number for this set is 9J1073660R, which confirms its authenticity as an original Porsche part. This set is ideal for drivers who want to improve both the aesthetic appearance of their vehicle and its performance on the road.
