Available:	availability on request
Price:	4.844,49 € (nett:4.071,00 €)

Product description

These 21-inch SportDesign summer wheels for the Porsche Panamera model 971 are an excellent choice for drivers looking for both style and performance. The wheels consist of two different rim sizes: 9.5J x 21 ET71 for the front axle and 11.5J x 21 ET69 for the rear axle, ensuring an optimal fit and excellent driving stability. The rims feature an attractive platinum silk matt finish, which is not only aesthetically pleasing but also offers high resistance to environmental influences. The set is completed by high-quality Pirelli summer tyres in the dimensions 275/35 ZR21 for the front axle and 315/30 ZR21 for the rear axle. These tyres are new and offer excellent performance in dry and wet conditions, making them ideal for summer.

In addition, the wheels are equipped with TPMS (tyre pressure monitoring system) sensors, which constantly monitor the pressure in the tyres, ensuring increased safety and improved fuel efficiency. The OEM number for these wheels is 971044660E OB5, confirming their authenticity and compatibility with the Porsche Panamera model 971. Although the rims are used, they are in mint condition with minimal signs of wear or storage, and the tyres are brand new. This combination of stylish rims and high-performance tyres makes the SportDesign summer wheels an ideal choice for anyone who wants to enhance the look of their vehicle and improve driving dynamics.

Technical specifications
