Price:	362,76 € (nett:304,84 €)

Product description

This A-pillar reinforcement, designed for the left-hand side of the Porsche 911 997 series, is a key structural component that provides additional rigidity and safety in the event of a side impact. This product is new, unused and undamaged, guaranteeing the highest quality and reliability in use. It is a genuine Porsche part, ensuring a perfect fit and compliance with all factory safety and quality standards.

The OEM number for this product is 99750213503GRV, with additional replacement numbers 99650213502GRV and 99750213500GRV, which facilitates identification and ensures compatibility with various versions of the 997 model. The A-pillar reinforcement is designed exclusively for the coupé version, which should be taken into account when purchasing.

Purchasing genuine parts, such as this A-pillar reinforcement, is an investment in the long-term performance and safety of your Porsche 911.
