Product description

This Porsche 911 991.2 C2S / GTS PDK transmission, model CG1.10, is an essential component for those looking to replace or upgrade their vehicle's gearbox. Specifically designed for the Porsche 911 model 991, this PDK (Porsche Doppelkupplung) transmission offers seamless gear changes and superior performance, characteristic of Porsche's innovative engineering.

The OEM number for this particular gearbox is 9G130003111, ensuring that it is a genuine Porsche original part, which guarantees compatibility and reliability. This transmission is used but in very good condition, with no damage reported, making it an excellent choice for maintaining the high standards expected from a Porsche vehicle.

The PDK system is renowned for its rapid shift times and increased fuel efficiency compared to traditional manual transmissions. It allows the car to maintain constant torque and power delivery during gear changes, enhancing the driving experience, especially in performance contexts like racing or spirited road driving.

This gearbox is specifically compatible with the Porsche 911 991.2 models, including the Carrera 2S and GTS variants, making it a tailored choice for owners of these particular models. Whether you are looking to replace a faulty gearbox or upgrade to a more efficient and robust system, this Porsche 911 991.2 C2S / GTS PDK transmission is an excellent investment in the performance and enjoyment of your vehicle.
