Product description

The P´8478 model was launched in 1978 as the world’s first sunglasses design to include an interchangeable lens mechanism.

The design’s quick release catch enables users to change their lenses at a moment’s notice according to the changing light conditions. Titanium frame in light gold. Lenses made of polycarbonate with 100% UV protection, in brown. Includes a pair of interchangeable lenses in light blue/silver mirrored.

Also available in the colour titanium with lenses in grey gradient/silver mirrored, and with interchangeable lenses in green.
